Recommended Replacement Schedule

1" Fiberglass: Every 30 days
1" Pleated: Every 60-90 days
2" Pleated: Every 3-4 months
4" Pleated: Every 6-12 months
HEPA: Per manufacturer specs

Replace More Often If

- You have pets (especially shedding breeds)
- Family members have allergies or asthma
- You live near construction or dusty roads
- You run your system more than average
- You notice reduced airflow
